From next time, 5 to 7 drivers will be built in  
No steps are required.  
The steps from this screen are shown on the FireREX1 console.  
Please refer to the manual.  
About Driver Software Certificates  
All driver files provided by SCSI Pro Shop are digitally signed.This is a positive from our company  
This is a proof that the driver is the driver that was released in the formula.  
In addition, the certificate for the signer information has a deadline, but it will not expire and become unusable.  
It is not.You can use it as it is without any problems.
